GO ING Public

*International Art
Collectors in Sheffield*

Tues 15 September 2015
6pm, Millennium Gallery,
then across the city
6.30–9pm

Many great collections, Sheffield's included, were founded upon the philanthropic bequests of private collectors. Where are the philanthropists of the future, and what role do public galleries and private collections play in bringing great art to everyone?

To kick-start a debate, **Going Public: *International Art Collectors in Sheffield*** brings together four leading European private collections for a series of world-class exhibitions across the city.

Going Public will showcase stunning highlights from dslcollection, the Cattelain Collection, the Marzona Collection and the Sandretto Re Rebaudengo Collection. Visitors will discover work by internationally renowned artists, including *Jake & Dinos Chapman, Marcel Duchamp, Man Ray, Cao Fei, Anthony McCall, Fiona Tan, Sol LeWitt, Yang Jiechang and more.*
